PROFESSIONAL SUMMARY

Flutter / Mobile Developer with hands-on experience building and shipping cross-platform applications across fintech, travel planning, wedding planning, stock tracking, and real-time social products. Experienced with Dart, Flutter, Firebase, REST APIs, Riverpod, BLoC, MVVM, routing, offline-first flows, reusable UI components, debugging, clean code, and Google Play release. Published a Flutter application on Google Play and contributed to mobile products at MoneyPay, TernAI, and Fazla. Currently developing PromptGena's Flutter mobile application alongside the production web product, strengthening end-to-end product ownership and cross-platform delivery experience.

CORE MOBILE COMPETENCIES

Flutter, Dart, Firebase Authentication, Cloud Firestore, Hive, Riverpod, BLoC, MVVM, AutoRoute, GoRouter, REST API integration, reusable component architecture, offline-first flows, real-time data, debugging, performance-oriented development, clean code, SOLID principles, Git, Agile/Scrum, Google Play release

PROFESSIONAL EXPERIENCE

Founder / Full-Stack & Flutter Developer | [PromptGena](#) | Jul 2026 - Present

- Founded and launched [promptgena.com](#), a production AI prompt gallery built with Next.js, TypeScript, Prisma, PostgreSQL, Vercel, and Cloudflare R2.
- Currently developing PromptGena's Flutter/Dart mobile application, adapting core product flows and UI for mobile while maintaining the production web platform.
- Implemented authentication, admin tooling, image upload pipelines, responsive multilingual interfaces, and cloud integrations, strengthening API integration, debugging, and product ownership.

Frontend Developer | [Insider One](#) | Nov 2025 - Jun 2026 (Intern: Aug 2025 - Oct 2025)

- Built, maintained, and debugged production-facing frontend solutions for enterprise partner brands using JavaScript, HTML, CSS, jQuery, Web APIs, and live data.
- Developed responsive UI behavior, managed user interactions and API-driven flows, validated campaign logic, and resolved browser and integration issues across real customer environments.
- Tested edge cases, documented technical findings, and collaborated with product and operations teams in an Agile workflow.

Co-Founder / Flutter Developer | [TernAI](#) | Jun 2024 - Jul 2025

- Designed and developed an AI-assisted travel planning and budgeting mobile product using Flutter, Dart, Firebase, REST APIs, Riverpod, MVVM, and AutoRoute.
- Owned feature planning, mobile architecture decisions, reusable component structure, and Git-based delivery within a five-person product team.

Flutter Developer Intern | [MoneyPay](#) | Sep 2024 - Dec 2024

- Contributed to a Flutter-based fintech application through feature implementation, UI improvements, debugging, and performance-oriented development.
- Worked with MVVM, Firebase, SOLID principles, clean code practices, Git, and Agile/Scrum collaboration.

IT Intern | [VitrA Karo, Eczacıbaşı Group](#) | Feb 2024 - May 2024

- Supported IT operations, technical troubleshooting, documentation, and cross-functional coordination in a corporate environment.

IT Team Assistant | [Akbank](#) | Nov 2023 - Feb 2024

- Supported IT team workflows, operational follow-up, documentation, and internal coordination in a banking technology environment.

React Native Intern | [Fazla](#) | Aug 2023 - Nov 2023

- Developed reusable mobile UI components for a stock-tracking application and gained experience in team-based mobile development.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Firebase Authentication, Cloud Firestore, Hive, Riverpod, BLoC, AutoRoute, GoRouter, MVVM, offline-first app flows, real-time data flows, Google Play release

Mobile Architecture & Quality: Reusable UI components, state management, REST API integration, routing, authentication and data flows, debugging, performance-oriented development, clean code, SOLID principles

Supporting Web & Backend: JavaScript, TypeScript, Next.js, React/TSX, HTML5, CSS3, Tailwind CSS 4, jQuery, Web APIs, Prisma ORM, Drizzle ORM, PostgreSQL, SQL, Vercel, Cloudflare R2

Programming: Dart, JavaScript, TypeScript, C, Java; working knowledge of Kotlin, Swift, and React Native

Engineering: Git/GitHub, Agile/Scrum, technical documentation, code review, AI-assisted development tools

Languages: Turkish - Native, English - B1-B2, German - A1

SELECTED PROJECTS

PromptGena Mobile | Flutter, Dart

- Actively developing the Flutter mobile application for promptgena.com, extending the production product into a dedicated mobile experience.
- Applying existing product ownership, API integration, UI implementation, testing, and debugging experience to the mobile client.

Wedly | Flutter, Dart, Firebase, Hive, Riverpod, AutoRoute, Google Play

- Published a collaborative wedding planning application on Google Play with shared rooms, checklist flows, multilingual support, local storage, and offline-first synchronization.
- Implemented reusable Flutter components, authentication and data flows, app routing, and maintainable mobile architecture.

WatchParty | Flutter, BLoC, Firebase, GoRouter

- Built a synchronized YouTube playback experience with chat, voice messages, anonymous authentication, and real-time room-based interaction flows.

BookGena | **bookgena.com** | TypeScript, React/TSX, Tailwind CSS 4, Drizzle ORM, SQL

- Built the web product with server-side TypeScript, React/TSX components and pages, Tailwind CSS 4 styling, Drizzle migrations, and SQL-backed data workflows.

EDUCATION

BSc, Mathematics | **Yildiz Technical University** | 2018 - 2024

- Foundation in algorithms, analytical problem solving, linear algebra, mathematical analysis, differential equations, algebra, and game theory.

C Programming and Algorithm Design | **42 Software School** | 2022 - 2023

- Project-based training in C, Linux, memory management, data structures, algorithms, Git, and peer code review.

Flutter Developer Program | **Google Game and Application Academy** | Dec 2023 - Jul 2024

- Training focused on Flutter, Dart, Firebase, mobile product development, teamwork, and project delivery.

CERTIFICATIONS

Advanced Flutter - BTK Academy | Dart Programming - BTK Academy | Google Project Management
